

## Field Inputs / Outputs Digital

- Low cost compact Digital I/O modules with DIN rail mounting
- 2 wire RS 485 port provided on pluggable terminal block
- User definable Address, Baud rate and Parity through DIP Switch
- High Speed Modbus RTU (Slave) communication
- LED indication for each Input and Output, COM Port and Power ON
- No configuration software required
- Relay and Transistor outputs available
- CE marked with optional UL certification

## Basic FIOD Operation

## Function

The FIOD series products add digital capability to PLC / SCADA. Models are available that offer upto 16 digital inputs and upto 16 digital outputs.
The digital inputs and outputs are isolated from the host device. FIOD has one RS 485 (2 Wire) communication port to connect to host device.
Communication settings like baud rate, parity and station ID can be set by DIP Switch.

## Communication with Host

FIOD module supports Modbus RTU (Slave) Protocol. The communication can be done with Host through 2 wire RS 485 Network.
In case of communication failure with Host, all the outputs are switched OFF.

## Modbus Registers Mapping

There are 128 Modbus registers supported in FIOD. Out of which, 64 are input registers ( 1 to 64 ) which are mapped to input coils 1 to 1024. FIOD has 64 output registers ( 65 to 128) which are mapped to output coils 1025 to 2048.
First 16 coils from 1 to 16 are assigned for FIOD inputs ( 1 to 16 ).
Coils from 1025 to 1040 are assigned for FIOD outputs (1 to 16).

Modbus Mapping of Registers and Coils are mentioned below :

| Sr. <br> No. | Register <br> /Coil | Range | Modbus <br> Mapping | Modbus <br> Tag Length |
| :--- | :--- | :--- | :--- | :--- |
| 1. | Input Register | $1-64$ | $40001-40064$ | 2-bytes <br> 2. |
| Output Register | $65-128$ | $40065-40128$ | 2-bytes |  |
| 3. | Input Coil | $1-1024$ | $00001-01024$ | 1-bit |
| 4. | Output Coil | $1025-2048$ | $01025-02048$ | 1-bit |

Internally Registers (I/P and O/P) are mapped with Coils as mentioned below :

| Coil 16 | ..... | Coil 1 | Coil 32 | .... | Coil 17 | .... |
